| • Designing | Adobe Photoshop CS5,CC |
| • IDE | Visual Studio 2010,13, Eclipse, MySQL, Android Studio |
| | MySQL Workbench, Eclipse, SQL Server Management Studio, PG AdminIII |
| • VERSION CONTROLLING | SVN, GIT-Repository |

EXPERIENCE

Augusta Hitech Soft Sol

Software Web Developer, (Intern Jan 2013 – Apr 2013, Full Time Apr 2013 – Feb 2014)

Coimbatore, India

Jan 2013 – Feb 2014

- Designed an online education & examination web application.
- Performed functional & database level testing of the several applications and have tracked the defects using Jira. Also maintained test cases, test scenarios and test documentation.
- Designed User Interface for a job portal website.
- Designed posters, pictures for websites using Adobe Photoshop.
- Both UI & Backend for a college alumni social web application. Where students can post, share, comment, track friends & message each other. This project was developed using ASP.Net.
- Developed a payroll web application.
- Participated in team meetings which involved critical functionality development phases such as data modeling and user acceptance testing.

ACADEMIC PROJECTS

- Online Shop locator by tracking the user's location and also by specifying locations.
- Adding extra features on a live project (E-commerce website) like UI, product suggestions.
- Education Consultant project using MVC Java Architecture.
- Research on time taken while threading for a 1 GB txt file.
- College department website using ASP.Net MVC architecture where students & professors can interact regarding course work and college/department events.
- Two middle level e-commerce websites using JAVA MVC architecture.
- Mobile Chat Application which was built through Android platform. Here I have used Amazon Web Services. The main key features were sending & accepting friend requests.

AWARDS

- Company level certification on Entry level software Development training.
- Best Student Coordinator Award in the year 2013,
- Student Chairman 2012-2013 during my under graduate work.
